## EDUCATION

**Bachelor of Computer Application**, Dinabandhu Andrews Institute of Technology and Management 2022 - 2025  
**CGPA:** 8.90

**Class XII**, Khanpur Hirendra Lal Sarkar High School  
**Percentage:** 92.8%

2020 - 2022

## EXPERIENCE

**Java Developer Trainee**  
SHA Infotech Solution Pvt. Ltd.

**July 2024 – August 2024**  
*Kolkata, India*

- Worked on real-time Java backend tasks and database management, strengthening backend consistency and hands-on skills with **Oracle DB** and **SQL**.
- Created and configured an Oracle database instance (**daitmdb**) and imported a logical backup, improving data availability and system setup efficiency by **30%**.

## PROJECTS

**FoodSphere.** [Github](#) | [Website](#)

**Nov 2024**

A scalable **food ordering web application** for restaurant-customer interaction, built using **Java, Spring Boot, PostgreSQL, React, TailwindCSS, Axios**, and **AWS**.

- Implemented **JWT-based authentication and role-based authorization** for secure access control for users and restaurants
- Developed interactive UIs for **customers to browse menus, add items to cart, and place orders seamlessly**
- Enabled **restaurant owners to manage menus**, update availability, and track incoming orders in real time
- Built a **responsive shopping cart system** with dynamic price updates and smooth checkout experience
- Integrated **Stripe Payment Gateway** and deployed services on **AWS Cloud Infrastructure**
- Designed a centralized **admin panel** to manage users, orders, restaurant listings, and delivery statuses

**AI-FitAdvisor.** [Github](#) | [Website](#)

**April 2025**

A scalable **fitness platform** offering AI-driven workout recommendations and activity tracking, built with **Java, Spring Boot, PostgreSQL, MongoDB, Docker, RabbitMQ**, and **Keycloak**.

- Utilized **Keycloak** for secure authentication and **role-based access control** across services
- Developed and deployed modular **RESTful microservices** with **RabbitMQ** for asynchronous communication
- Integrated **Gemini AI API** to generate real-time, personalized fitness plans and recommendations

**Organize.** [Github](#) | [Website](#)

**May 2025**

A modular **project management platform** designed to streamline task assignment and tracking, built with **Java, Spring Boot, PostgreSQL, React, JWT**, and a **Microservices Architecture**.

- Implemented **JWT-based authentication** to ensure secure and scoped user access
- Ensured **data consistency and fault tolerance** through reliable **inter-service communication**

## SKILLS

C, C++, Java, Spring Boot, Microservices, REST, GraphQL, PostgreSQL, MongoDB, Database Management Systems, Git, GitHub, Docker, RabbitMQ, Data Structures and Algorithms, Object-Oriented Programming (OOP), Operating Systems, Computer Networks, Low Level Design, HTML, CSS, JavaScript

## ACHIEVEMENTS

- Solved **500+** coding problems on **LeetCode** ([Profile](#)) and **200+** problems on **GeeksforGeeks** ([Profile](#)).
- Secured **2nd Rank** in academics at Dinabandhu Andrews Institute of Technology and Management.
- Achieved **State Rank 39** in WBCHSE Class XII Board Examination.
